

# Transform Your Organization

## Leadership and Organizational Consulting

Bring Patrick Lencioni's groundbreaking consulting approach to your organization. Our consultants work with organizations in a variety of ways

to transform the effectiveness of leaders and their teams.

### leadership team offsite

The hallmark of the Table Group Consulting Partners is a two-day leadership team offsite designed for single, intact leadership teams. Consultants will rapidly address the Five Dysfunctions and ensure teams make significant improvement in their cohesiveness.

### team and leader coaching

As a follow-up to our initial 2-day offsite, Table Group Consultants work with teams to continue progress and improvement. The approach will vary by client need and usually involve some combination of: one-on-one coaching, meeting facilitation/observation, and strategic offsite planning and facilitation.

### TEAMinar

This large-scale offsite session takes a number of teams through the Five Dysfunctions material simultaneously. Each team will experience the Five Dysfunctions material consistently and break-out into team focused discussions with the aid of a professional facilitator.

### train-the-trainer

A train-the-trainer option is available for those organizations who want to build their own delivery capability.

## Client Comments

“The Five Dysfunctions program has enabled us to sustain performance through creativity and teamwork. We're using it throughout the entire company.”

Matt Danilowicz,  
CEO, Clear-Com

“Our two-day session made a greater impact on our executive team—and our entire organization—than any team building work we have ever experienced.”

Noel Williams,  
Senior Vice President  
& Chief Information Officer, HCA, Inc.
